Size

4.30 hectares

Terroir

Alternating Kimmeridgian
marl and limestone

Vinification

Traditional low
temperature fermentation
in stainless steel tanks

Elevage

12 months in stainless steel

About

In the 1950s, Mr. De Oliveira began working in the vines at the age of 14 years old. After ten years, he saved enough to purchase his first parcel of land - a mere 33 ares, and he planted his first vineyard. Over the years, he continued to purchase land and plant new vineyards, and in 1965, he began working full time at his own domaine which had grown to 7 hectares. He continued to invest and grow over the years, and today the domaine encompasses 50 hectares of vines. The wines are vinified and aged exclusively in stainless steel tanks, and reflect the perfect typicity of Chablis.
