# Rosé de Silex 2020

## Domaine des Hauts-Baigneux

---

**Varietals**

70% Grolleau,  
15% Côt,  
15% Gamay

---

**Vineyard**

The 15ha vineyard is organically farmed around three villages and terroirs: Saché, Chellé, and Vallères.

---

**Vinification**

Manual harvest, and direct pressing. The wine is fermented with indigenous yeasts and then aged in acacia wood barrels for 12 months. As for the Chenin, the 12 months aging stretches the minerality to get a cristal wine.

---

**Terroir**

- Saché: South facing small hill on which the soil is composed of clay with flint. Our Chenin Blanc are principally farmed there.
- Chellé: Many hills with clay soils. Soft hills on the Indre Valley
- Vallères: Soils are mostly composed of sand on clay with flint. Located on a plateau over watching the Loire river.
